

Ever since I read about radio and tv stations being allowed to merge into large entities I have been concerned. I didn't understand how this could be allowed to happen. It left the country open to what is happening now with Sinclair. They are supposed to serve the public and instead are serving their own special interests. They should be stopped from airing these anti-Kerry messages just before the election. And the system for licensing stations should be improved. Please pay attention to this problem. Thank you.
